## Plumbing Inspection

### Inspect both bathrooms

- First bathroom with vanity
- passes (do recommend for future to replace angle stops)
- Second Bathroom with double vanities is not under code
- drain is exposed not inside wall with upside down tee
- Faucet water lines and supply lines need to be inside wall with proper connections, need separate angles stops
- Faucet drain has clear dap not installed appropriately
- Faucets are loose need to be tighten
- 
-
